Texas Helicopter Hunting Hogs and Coyotes

Dec 2019 — May 2020

Inclusive except airfare to Midland TX

www.grassyknollenterprises.com

We are the nations premiere aerial outfitter, with over 2.5 million acres of leased ground, 6 helicopters, and over 25 years of flying experience.

With your safety as our top priority our pilots have decades of experience and well maintained aircraft. We currently operate Robinson R44 helicopters armed with the highest grade AR-15's with suppressors and optics. Be prepared to shoot hundreds and hundreds of rounds, if needed weapon training is provided.

www.grassyknollenterprises.com

After flying into Midland TX, we shuttle you to the hunting location, typically houses on site or lodges we have available depending on the concentration and location of the animals. After a brief safety course and orientation to aerial shooting we have Q and A, dinner dessert and get flying first thing in the morning.

We schedule a full 16 hours of flying weather permitting, this ensures everyone in the group will have the best opportunity for ample trigger time. Shooter Rotation is (According to Opportunities To Shoot.)
We stand out in that regard, offering the most complete experience as opposed to selling hours “a la carte.” Our competitors sell by the hour and that usually leaves someone out according to their luck, our format ensures everyone has equal opportunity to bring hogs and coyotes down!

Are you interested in shooting a large number of animals? Our per hour animal average is very consistent averaging 18-20 per hour, maxing out all the way up to 40 animals an hour depending on shooting performance. The pilot will coach you through headsets with great music until you get the hang of aerial platform shooting, and then you will stack them up!
We have yet to have someone be displeased with these hunts, they are 100% successful leaving all smiles, book today before our calendar fills up!

Pricing

$7,000 per shooter (3,500 per day)
4 Person Minimum (smaller groups can be combined)
Large group discounts up to 16 shooters available

www.grassyknollenterprises.com

This includes travel to and from airport, approximately 4 hours of flight time per person, (depending on weight restricions) up to 8 hours per person, all ammunition, Top shelf suppressed rifles with optics, lodging, snacks, meals and beverages. Custom food menus are available upon booking.

(In the case the shooters weights and experience are acceptable to the pilots safety standards we often fly 2 shooters at a time, this allows for more time flown per person.)
